SUMMARY

Full Stack Web Developer with experience in UX design interface through WordPress and web builders. Recognized as a charismatic, servant leader, team player that is self motivated and a problem-solver with strong written and verbal communication skills. Subject matter expert in inventory product audits and data research through Microsoft Office Suite. Seeking to add cost-effective value that enhances mobile and web services in a quality, Agile team-based environment.

TECHNICAL SKILLS

Node.js, Express, JavaScript, jQuery, React.js, React Native, GIT, GitHub, MongoDB, MySQL, Firebase, Handlebars, HTML, CSS, Bootstrap, Media Queries, AJAX, Microsoft Suite, Heroku, Command- Line

PROJECTS

RC FIT 7 | Front-End Developer | Deployed Link: <https://rcfit7-react-app.herokuapp.com/>
Code: <https://github.com/Nadia-Kadri/RCFit7>

This project is designed to be a personal manager for fitness trainers as well as their clients. It allows for trainers to create classes and assign dates, times, and trainers to those classes and for their clients to sign up for upcoming classes. Trainers can see who is coming to their classes whenever a client signs up.

- **Role:** Responsible for the concept and design of a website.
- **Utilized:** React, Bootstrap, MongoDB, Mongoose, Passport.js, HTML5, CSS3, Axios, React-Big-Calendar npm package, GitHub and Heroku for deployment.

Want-A-Burger | Back-End Developer | Deployed Link: wantaburger.herokuapp.com/
Code: <https://github.com/Maserallm/burgers>

This back-end app was created to display what types of burgers that the user has eaten, has not eaten, and also input custom burgers they will soon eat.

- **Role:** Responsible for the development functionality and design of the website.
- **Utilized:** Node, Express, Handlebars, MySQL, Bootstrap, CSS3, and Heroku for deployment.

Bamazon | Back-End Developer | Code: <https://github.com/Maserallm/Node.js-MySQL>

This is a simple CLI recreation of the Amazon store where users can add or remove available shopping items into their shopping carts and checkout.

- **Role:** Responsible for the development.
- **Utilized:** Node, MySQL, JavaScript, Inquirer, Chalk, and GitHub.
